Every moment is a learning moment at Nature’s Classroom Institute. We motivate students in ways they don’t even realize they are learning. Instead of looking out the window at nature ~ we teach there!

Our goal is to incorporate the whole environment, teaching through the elements of the world around us.

Our classes are engaging through every step of the program and include your classroom curriculum to keep it relevant to your class goals.

NCI’s Wetland site is in an area of lakes, creeks and marshland just 15 minutes from the I-75 in Brooksville, Florida. Just an hour north of Tampa and less than 2 hours from Orlando, our Brooksville facility is easily accessible. With its beautiful creeks and a huge picturesque lake, expansive trails and open areas this site offers a perfect Florida Wetland experience.

Why NCI?
Nature’s Classroom Institute is the very best in environmental education. We develop tomorrow’s leaders through self discovery, collaboration and a deep thirst for learning.

Our program encompasses team building, individual independence, experiential outdoor learning while including the current classroom curriculum of history, mathematics, science, art and writing.

NCI motivates the students to continually learn by teaching through creative and progressive methods.

We build a framework that leads to specific goals and objectives and then, guiding along the way, allow each student the freedom to choose their own path, based upon their natural motivations, curiosities and learning styles.

Explore your opportunity to follow the interests of your students and exceed standards with customized experiences.

Why Brooksville?
• Ample rustic cabins, beautiful dining room and massive outdoor space. The facility offers students and staff comfortable, quality sleeping accommodation.

• Offers hiking trails, a lake with an abundance of life, fields for play and curriculum, a farm for animal husbandry, canoeing, a tree canopy, low-ropes course, an engrossing environment for all to enjoy.

• A wetlands ecosystem with a huge variety of shore birds, insects and terrestrial and aquatic flora and fauna, with hiking trails that wind through the trees into vast wooded areas.

• The farm is open for all to enjoy and experience with horses, goats and donkeys.

• The perfect place to explore the wild wetlands with so much to see and learn.

Benefits of NCI
• Teachers discover new ways to reach your students and elevate your relationships.

• NCI enhances community, enthusiasm, and excitement for learning in the classroom.

• Veteran staff to present and customize curriculum for each school.

• Pre-program guidance and planning.

• Students enjoy a unique educational experience that motivates them to learn.

• Students gain new independence and confidence to help them succeed, grow and become leaders.

• Funding options and guidance.
